Badu® Swim Mirror

The Badu Swim Mirror has been specially designed to be the perfect "tool" to help swimmers stay in the "swim lane". The Badu Swim Mirror is light enough to easily place it on the bottom of the pool, but heavy enough to stay put while the Badu SwimJet System is running. It can easily be removed after a workout.

This single mirror should be placed about four feet from the Badu SwimJet nozzle. It is long enough for a swimmer to view their complete stroke. The edges are beveled to ensure there is no damage to the floor of the pool. The Badu Swim Mirror can be used in any type of pool.
